

# 15-400 Project Milestones: Using Just in Time Compilation to Implement an In-Memory Database Key Comparator

Abigale Kim

March 18, 2021

## 1 Major Changes

There have been no major changes in the implementation of my project proposal, but there really should be at this point, since I'm failing to complete the milestones.

## 2 Accomplishments

I have not really done anything since milestone 1.

## 3 Meeting Your Milestone

Have not met the milestone.

## 4 Surprises

A whole bunch of them—basically a bunch of life things have gotten in the way of me doing work.

## 5 Revisions to Original Milestones

No change to original milestones (yet), but am concerned I won't finish.

## 6 Resources Needed

I am set with both software and hardware.
